Oleksii Zaiats

Golang / Full Stack Developer

Summary

Full Stack Developer with strong expertise in Golang and modern JavaScript/TypeScript frameworks. Experienced in building scalable microservices, REST/gRPC APIs, and full-stack applications using Next.js, NestJS, Node.js, and MongoDB. Skilled in both e-commerce and real estate platforms, with hands-on experience in DevOps (Docker, GitLab CI/CD, Nginx). Passionate about writing clean, maintainable code and delivering production-ready solutions in distributed systems and high-load environments.

Work Experience

Full Stack Developer Real Estate Platform (Prague) 02.2024 Present

- Developed a real estate search platform for the Prague market.
- Built backend services with NestJS (Node.js).
- Developed frontend with Next.js, ensuring SEO-friendly SSR.
- Used MongoDB for data storage and management.
- Worked in a GitLab CI/CD environment with Docker-based deployments.

Full Stack Developer Glamorous Things 03.2023 08.2023

- Built and maintained e-commerce backend in Golang.
- Developed APIs for managing products, users, and orders.
- Improved frontend with HTMX, TailwindCSS, Alpine.js.
- Optimized database queries and checkout performance.

Golang Developer Idap 10.2022 12.2022

- Developed gRPC API for product-related services.
- Optimized authentication and service-to-service communication.
- Wrote documentation and improved developer experience.

Golang Developer Fortpolis 08.2021 10.2022

- Developed internal B2B insurance platform with microservices.
- Used NATS, PostgreSQL, Redis for distributed messaging.
- Implemented event-driven communication patterns.
- Maintained CI/CD and monitored production services.

PHP Developer Ulc, Eparts 05.2019 07.2021

- Extended store functionality using PHP (Zend framework).
- Integrated payment systems and improved catalog management.
- Enhanced site performance and SEO optimization.

Content Manager Makhovik 03.2018 04.2019

- Managed product content, catalog updates, and SEO tasks.
- Assisted with user support and online sales.

Education

National Transport University (NTU) Engineering (2000-2006)
Additional courses: PHP (3 months), Golang (4 months), React (3 months)
